It's amazing fillled with graphics and animations, but here is the catch you have to... more
Haha, you are good at the field.
Hey brother I have used your app and I was wondering why haven't you integrated liquid glass into it
Haha, thank you very much for using my app, and then about the use of liquid glass. In fact, I have some different opinions. I think liquid glass sometimes interferes with reading, but I will refer to your suggestions. You may be able to turn on this function in the settings in the next update.
